

An event arranged by [SINGS](#) (Swedish Interdisciplinary Graduate School in Register-Based Research) within [SIMSAM](#) (Swedish Initiative for Research on Microdata in the Social And Medical Sciences) supported by the Swedish Research Council

SINGS Event

[Registration form](#), last registration date November 23 at 13 p.m. (No registration fees or other costs.)

When: December 8, 16:00–19:00, 2016

Where: [Aula Medica](#), Level 4, Nobels väg 6, Karolinska Institutet, Solna

Programme

16:00–17:00 **Plenary talks** (venue: [Samuelsson Lecture Hall](#))

“Statistical methods for longitudinal studies with specific applications to life-course epidemiology”

Professor Bianca De Stavola, London School of Hygiene and Tropical Medicine, London, UK

“Findings from the Australian Longitudinal Study on Women's Health: A data science perspective”

Professor Gita Mishra, School of Public Health, University of Queensland, Australia

17:15–19:00 **SINGS event, continue** (venue: Aula Medica, Level 4)

Informal presentation of research projects

Graduation ceremony SINGS students

Buffet, mingle, networking

Present your projects

Take this opportunity to informally present your research project, and receive useful feedback from other researchers. You can present on a poster, explain on a flipchart or distribute some other kind of brief communication (indicate your choice in the registration form).

Audience: SINGS students (SINGS 2, Cohort 1 and Cohort 2)

Supervisors

SINGS and SIMSAM steering groups

Representatives from different SIMSAM research nodes

Other researchers from different research disciplines

Representatives from authorities and other data owner groups

Welcome!
